PRODUCTION READINESS SCORE

BEFORE **34** → **72** AFTER

+38

CATEGORY BREAKDOWN

	BEFORE	AFTER	CHG
Testing	0/17	10/17	+10
Error Handling	6/17	14/17	+8
Types	8/17	15/17	+7
Security	8/16	14/16	+6
Performance	8/16	11/16	+3
Readability	4/17	8/17	+4

✓ WHAT IMPROVED

- Click 1 — Added input validation to join and invite endpoints
- Click 2 — Replaced 12 any types with proper TypeScript interfaces
- Click 3 — Added try/catch to all async database calls with proper error logging
- Click 4 — Moved hardcoded API key to environment variable
- Click 5 — Added 8 unit tests for core API routes covering happy path and error cases
- Click 7 — Extracted error formatting into shared utility function

✕ WHAT WAS ROLLED BACK

- Click 6 — Auth middleware could be simplified
